Introduction :

This Software is intended for the Advocates who are having their Diary in which Their case details and their case Dates are feeded by them with the conditional reports.

Till today in the fast time of computer their work is still dependent on the persons and manual entry with lots of case handling at the same time. This software is replacing the manual , regrous work and no. of legacy system with the automatic and easy record traking system.

Additional Feature :

Master contact for_the Contact details and easy recovery of the contact from the list of the contact book.

Dividing the contact on the basis of Group and case related contacts with easy searching facility.

SNAPSHOTS

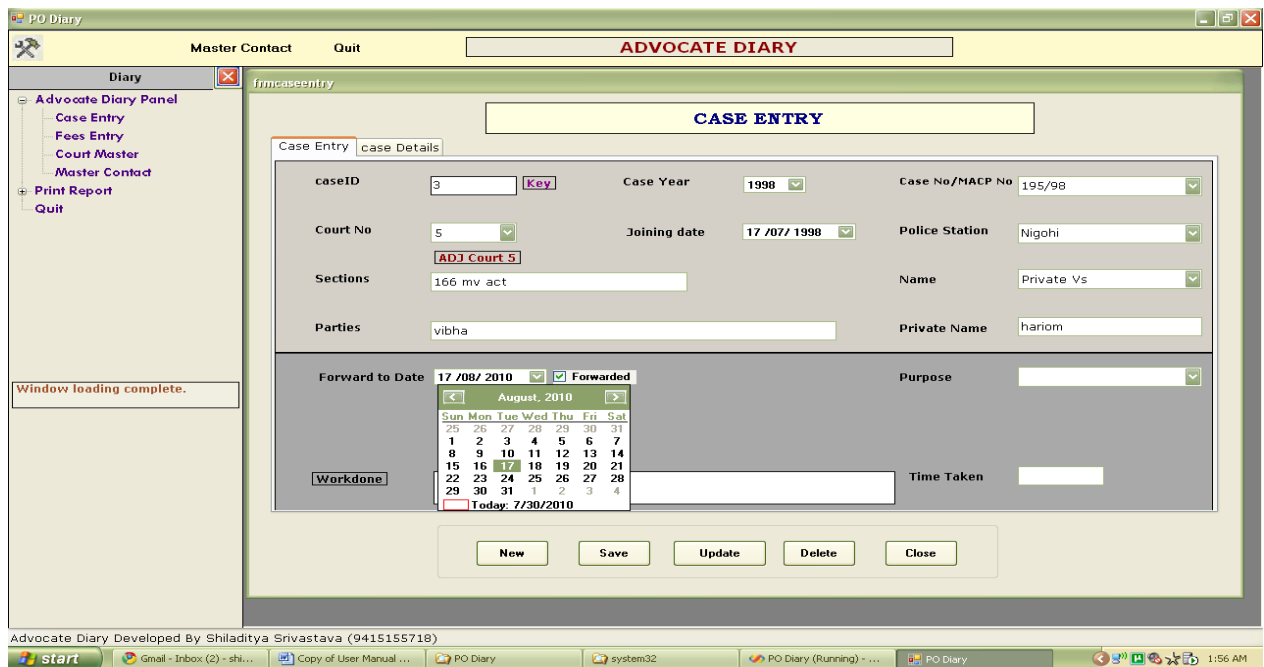

Figure (a). Main Screen of the Software.

Figure(a.a) Expanding the Tree link for showing complete links

Figure(a.b) On click of “case Entry” Tab Screen for Entry will come With “tick” for forward of the date to next date and Purpose for entry.

The screenshot displays the 'ADVOCATE DIARY' software window. The main area is titled 'CASE ENTRY' and contains a form with the following data:

Fees Window

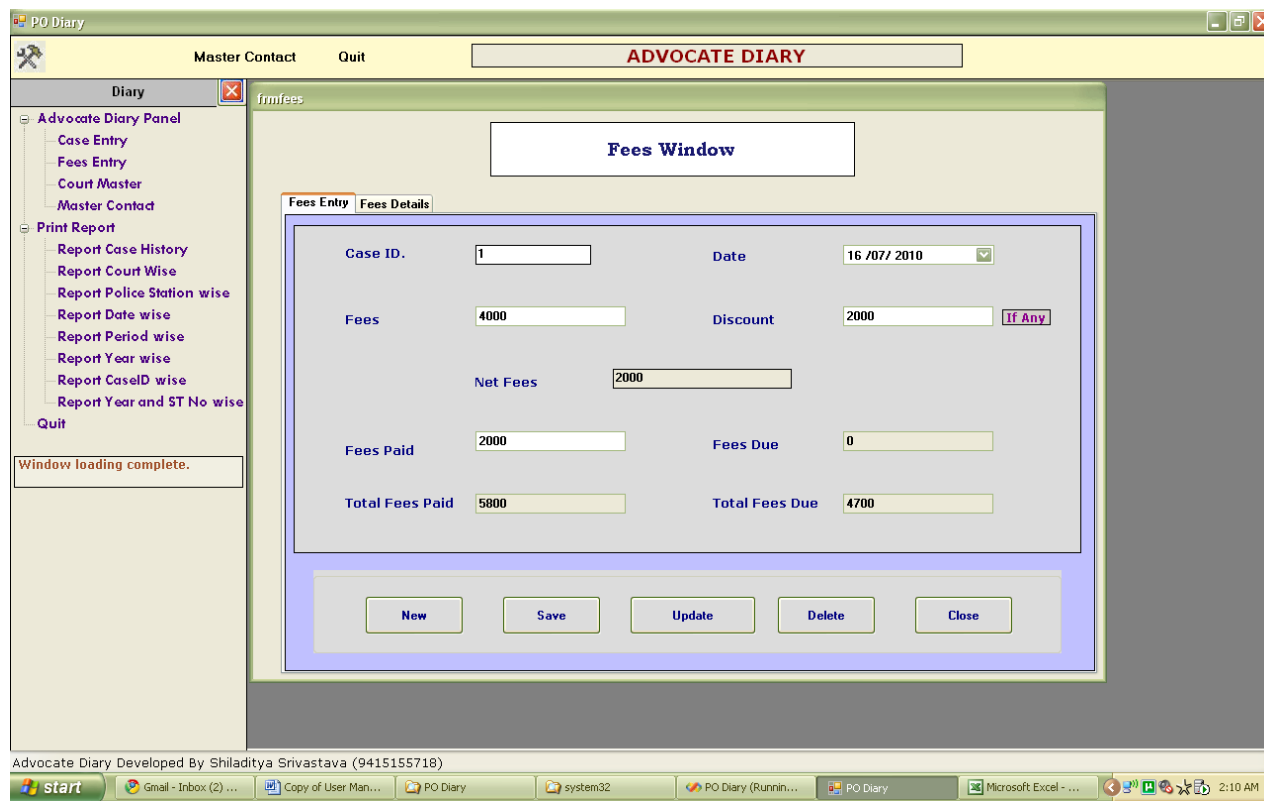

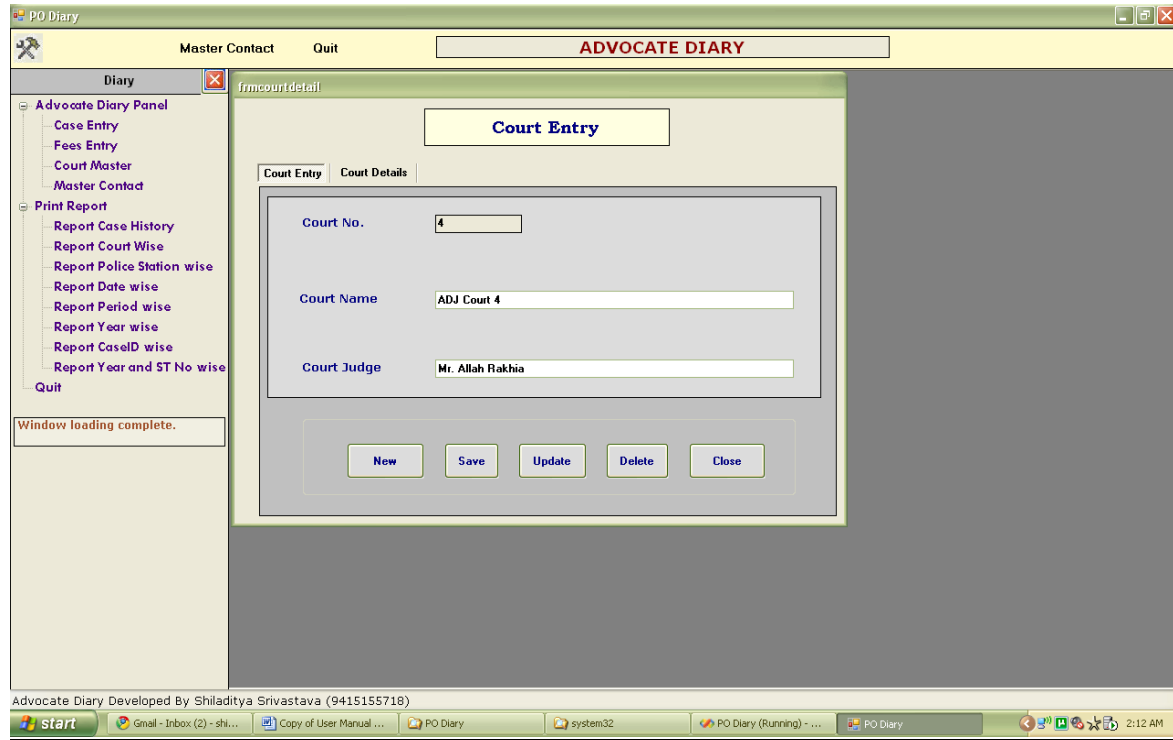

Figure (n) “Fees Window” for Advocate Fees Transaction.

The screenshot shows the 'ADVOCATE DIARY' application window. The title bar includes 'Master Contact' and 'Quit'. The main window has a menu bar with 'Diary' and a toolbar with 'frmfees'. A sidebar on the left contains a tree view with categories like 'Advocate Diary Panel', 'Print Report', and 'Quit'. The main area is titled 'Fees Window' and contains a 'Fees Entry' tab and a 'Fees Details' tab. A table is displayed with the following data:

Case ID	Fees Date	Net Fees	Fees Paid	fees Due
1	7/16/2010	3700	2000	1700
1	7/25/2010	2800	1500	1300
1	7/26/2010	4000	2300	1700

At the bottom of the application window, it says 'Advocate Diary Developed By Shiladitya Srivastava (9415155718)'. The Windows taskbar at the bottom shows the Start button and several open applications including Gmail, PO Diary, and Microsoft Excel. The system tray shows the time as 2:11 AM.

Court Master Detail Feeding

The screenshot displays the 'ADVOCATE DIARY' application window. The title bar shows 'PO Diary' and standard window controls. The menu bar includes 'Master Contact' and 'Quit'. The main menu on the left is titled 'Diary' and contains the following items:

- Advocate Diary Panel
 - Case Entry
 - Fees Entry
 - Court Master
 - Master Contact
- Print Report
 - Report Case History
 - Report Court Wise
 - Report Police Station wise
 - Report Date wise
 - Report Period wise
 - Report Year wise
 - Report CaseID wise
 - Report Year and ST No wise
- Quit

The main content area is titled 'Court Entry' and features a sub-menu with 'Court Entry' and 'Court Details'. A table is displayed with the following data:

Court	Court Name	Court Judge
1	District Judge	Smt Sandhya Bhatt
2	ADJ Court 1	Mr. Jagdish Sant
3	ADJ Court 2	Mr. S.S Yadav
4	ADJ Court 4	Mr. Allah Rakhia
5	ADJ Court 5	Vacant
6	ADJ Court 6	Vacant
7	ADJ Court 7	Mr. Rajbir Singh
8	ADJ Court 8	Mr. Peeyush Sharma
9	ADJ Court 9	Mr. Sita Ram Nigam

At the bottom of the application window, it states: 'Advocate Diary Developed By Shiladitya Srivastava (9415155718)'. The Windows taskbar at the bottom shows the 'start' button, several open applications (Gmail, Copy of User Manual, PO Diary, system32), and the system tray with the time '2:12 AM'.

Contact Book

For easy searching of the contact address with a center storage.

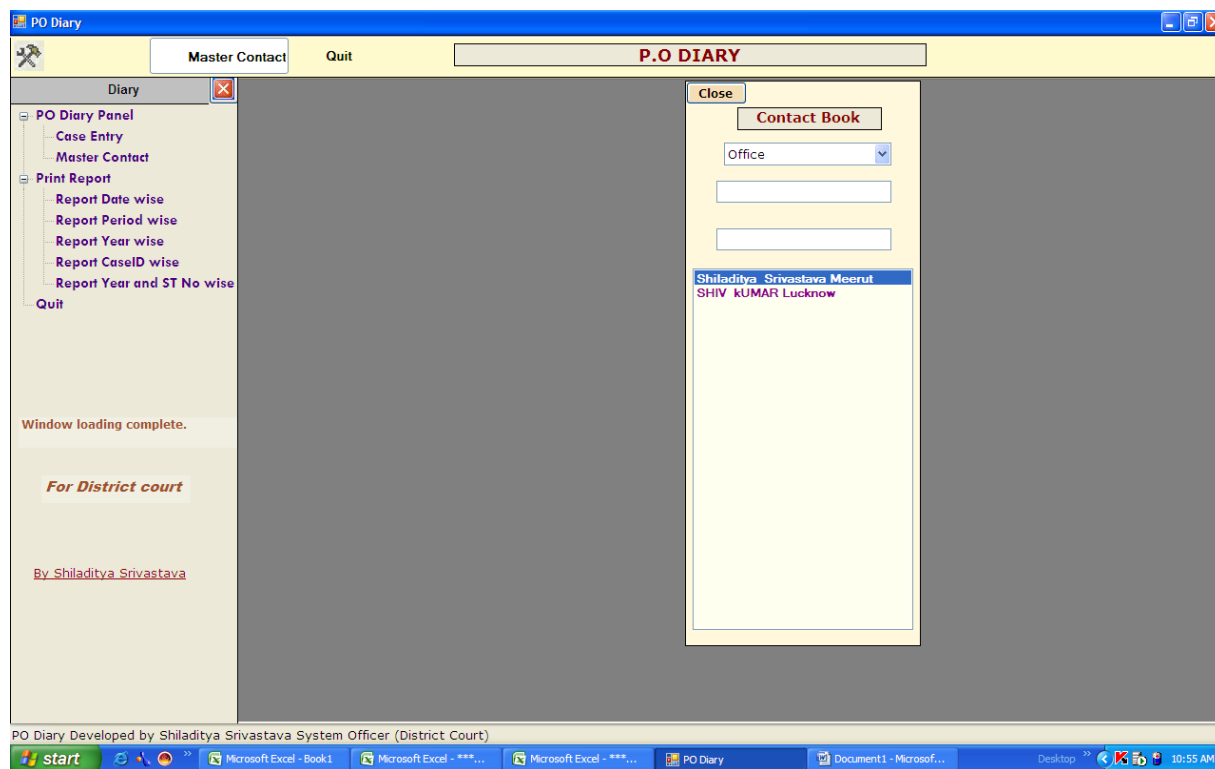

Figure (o) “Contact book” we get after click on “Master contact”

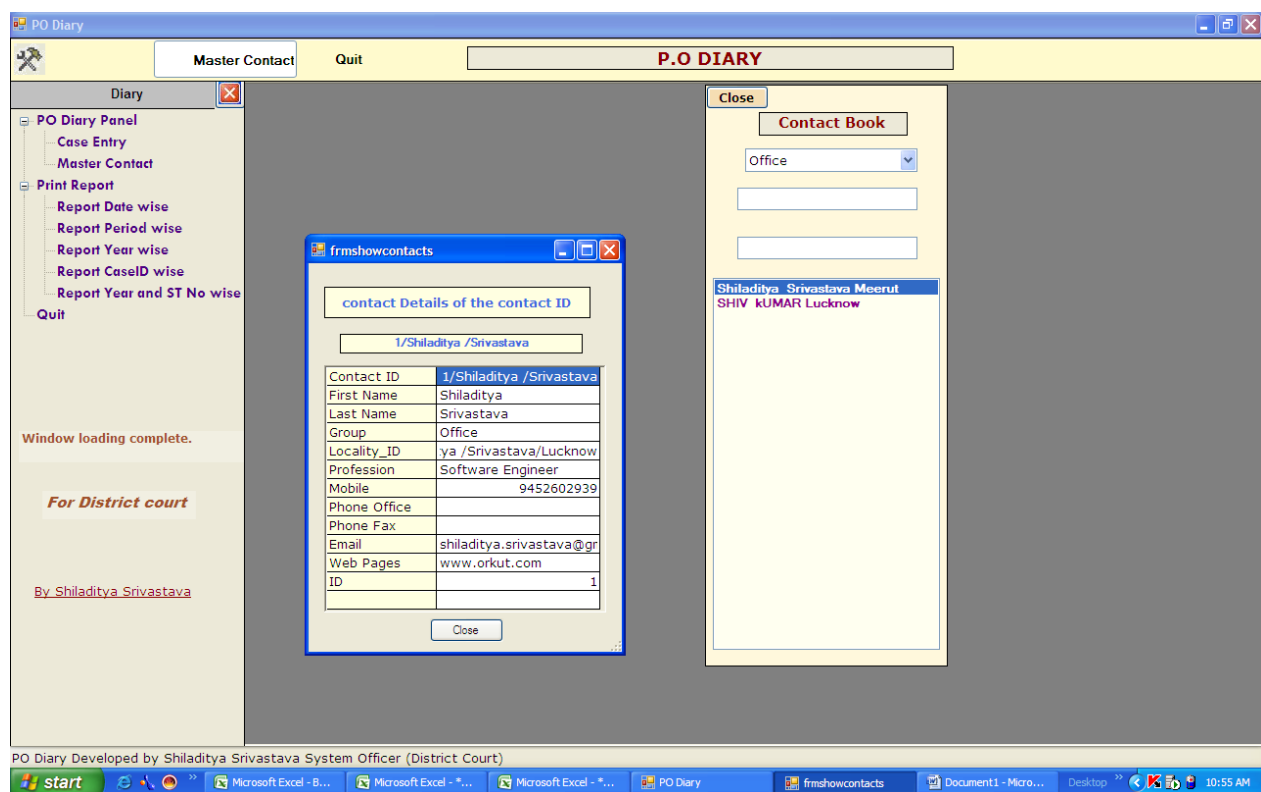

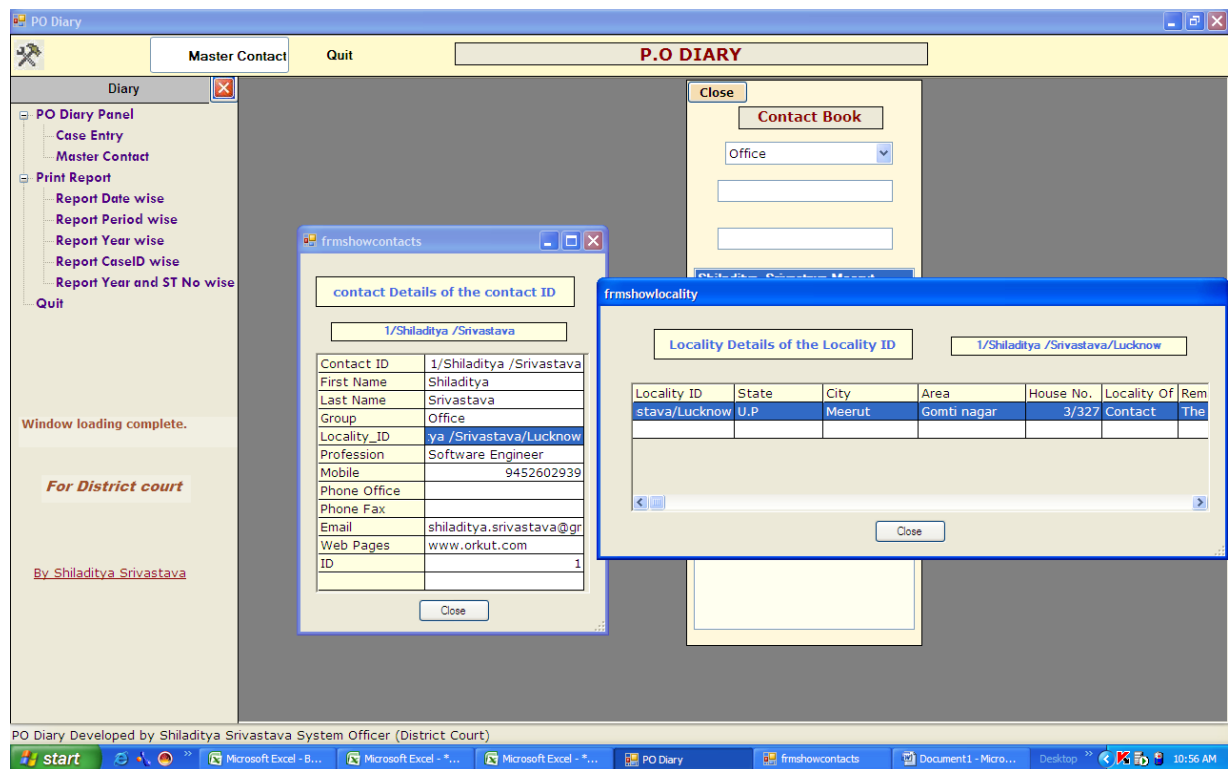

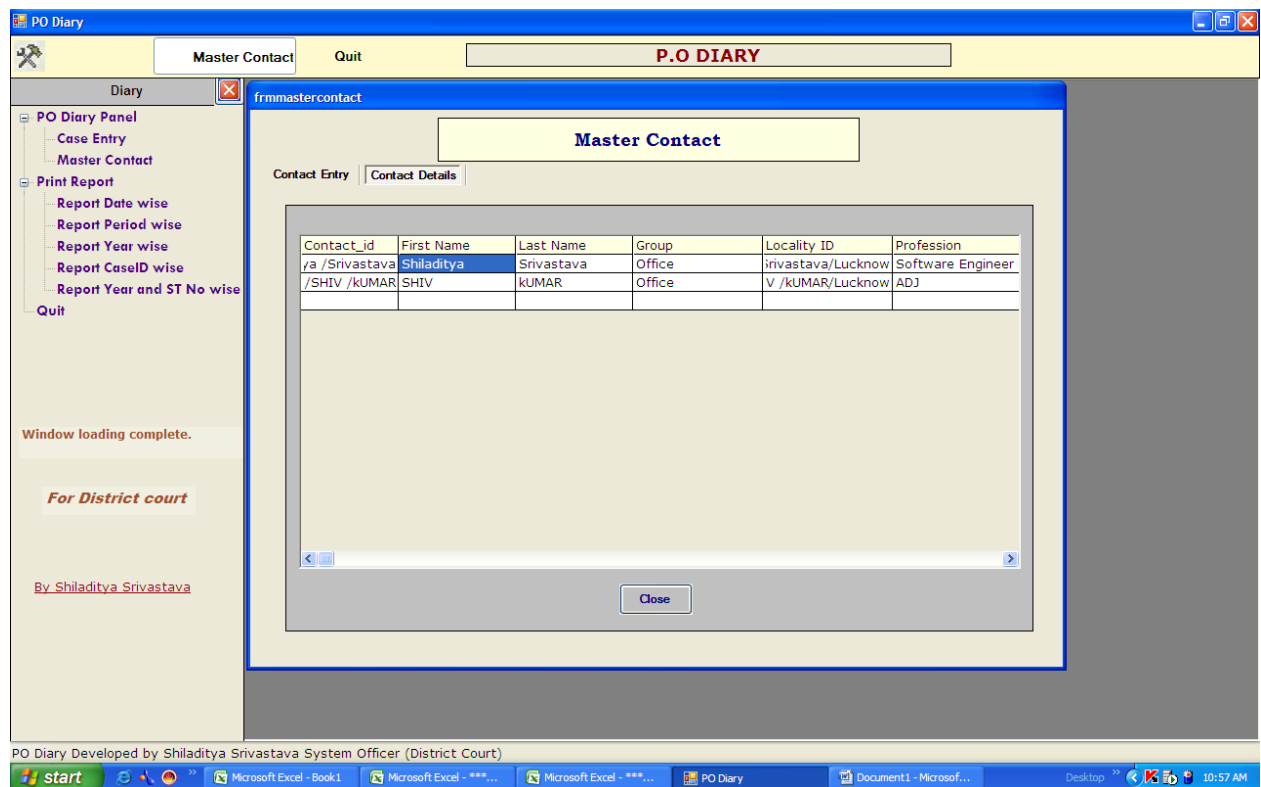

Figure (p) on double click of the contact we get the detail of the contact

Figure(q) On double click of the “Locality detail” we will get the detail list of the locality.

Figure (r) on Click “Master contact Tab” we get the contact entry Screen”

Figure(s) after saving of contact entry we get the “contact detail” in grid view form.

On double click of the row every record of that row will set in to their perticular text box for further modification.

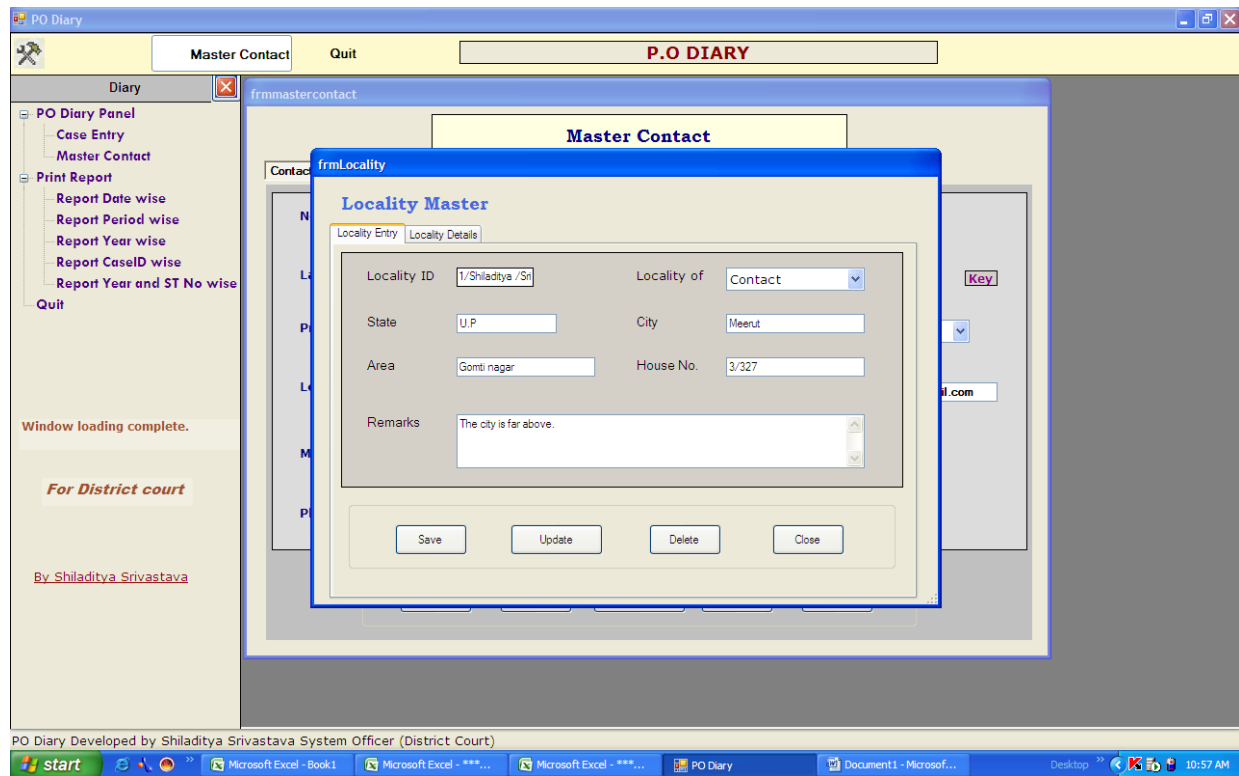

Figure (t) Entry of Locality details in particular contact entry.

Conversion From Windows to Linux :

We can Easily convert this software from windows to Linux Environment.

By some Easy methodologies.

Advantages of Software :

- a.) Replacing the Manual Entry of the Case details with the Computerized Automatic Entry Process.
- b.) Easily Tracing of the Record(Case) of very old time.
- c.) Easily Getting the Complete History of any Particular case with work done and evidence Detail.
- d.) Getting Report on MS Excel which is a very user friendly Tool.
- e.) Easy case forwarding Options.
- f.) Least dependency on any other person.
- g.) Least chance of the Human Error.
- h.) Complete Record Saving with easy Data Backup.
- i.) Automatic Provision of Case ID for easy case tracing.

Software Front End and Backend :

Front End : VB.Net with reporting on MS Excel.

Back End : MS SQL Server
